

# keyFibre

## Splitter Type OTB

FM-OTBO-ST-SB01-P-108-12

## Description

KeyFibre's range of outdoor boxes are IP 65 or 55 rated. IP 65 offers very high ingress protection while 55 helps avoid the condensation which would accumulate with higher hermetically-sealed closure IPs. Our solutions cover wall and pole-mountable boxes for PLCs, TAP boxes for 8 and 24 fibre and our KF2000 range of outdoor solutions offer massive possibilities for combining trays, adapters, P-gland and grommet to accommodate every requirement for uncut cable, loopthrough cable, cut cable entry and drop exit.

KeyFibre recognizes the importance of providing quality box solutions for housing splitters in today's FTTH installations. This continuously expanding range of boxes aims to do just that. Here you'll find IP65 wall or pole mountable enclosures which offer full cable and splice management plus adapter (SX Sx footprint).

## Characteristics

KeyFibre's a new generation product for fiber to the home. The box is light and compact, it is especially for connecting and protection for fiber cable of FTTH.

The maximum capacity is 12 fibers.

## Features

- It is applicable for wall-mounted indoor or outdoor.
- It is suitable for Max capacity of 8 pieces SC adapters installation and usage.
- The Max capacity is 12 fibers for fusion of direct fusion.
- It is allowed to preinstall PLC optical splitter with the Max optical distribution ratios 1:8. It apply to various cables and fast connector.
- The protection grade is IP65.
