

# keyFibre

## Splitter Type OTB

FM-OTBO-ST-SB02-P-116-16

## Description

KeyFibre's range of outdoor boxes are IP 65 or 55 rated. IP 65 offers very high ingress protection while 55 helps avoid the condensation which would accumulate with higher hermetically-sealed closure IPs. Our solutions cover wall and pole-mountable boxes for PLCs, TAP boxes for 8 and 24 fibre and our KF2000 range of outdoor solutions offer massive possibilities for combining trays, adapters, P-gland and grommet to accommodate every requirement for uncut cable, loopthrough cable, cut cable entry and drop exit.

KeyFibre recognizes the importance of providing quality box solutions for housing splitters in today's FTTH installations. This continuously expanding range of boxes aims to do just that. Here you'll find IP65 wall or pole mountable enclosures which offer full cable and splice management plus adapter (SX Sx footprint).

## Applications

- Widely used in FTTH access networks.
- Telecommunications Networks.
- CATV Networks.
- Data communications Networks.
- Local Area Networks.

## Features

- Made of high-impact plastic.
- Can accommodate 1x8 & 1x16 PLC splitter.
- UV and rainfall resistant.
- Up to 16 FTTH drops.
- Wall and pole mountable.
- 2 inlet ports, 16 outlets ports.
