## Customer Termination Box (CTB)/sockets

FM-CTB01-P-02 / FM-CTB02-P-02

### Description

KeyFibre's range of Customer Termination Boxes offers a range of termination possibilities. From our 4-way splicable box to our 1 or 2 way box, they are all designed primarily for SC Sx adapters, but will also accept anything with the same footprint such as LC Dx or hybrid adapters.

Attractive, wall-mountable solutions for home or office environments, Designed in neutral white ABS plastic they sit comfortably on the wall next to standard sockets in any office or domestic environment.

These items are supplied empty or delivered with a kit together with adapters and pigtails of your choice (G657 A1, A2 available).

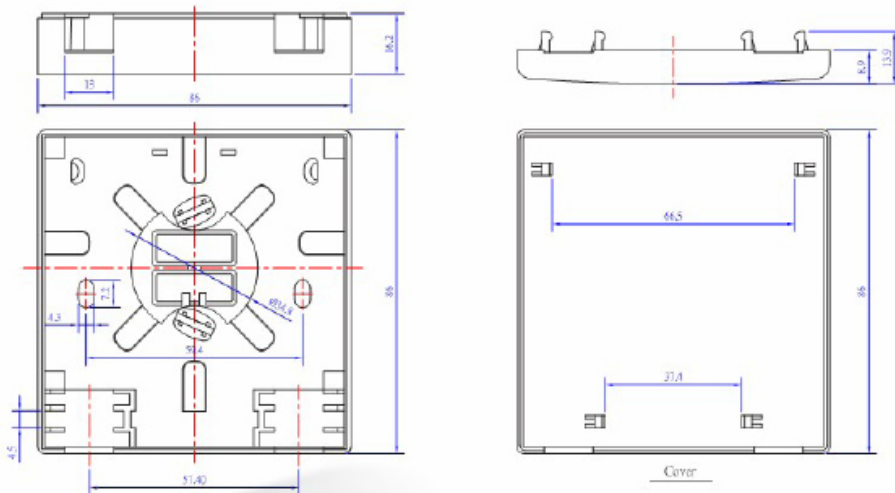

### Characteristics

KeyFibre's FM-CTB01-P-02 / FM-CTB02-P-02 customer premise fiber connection socket is a great wall-mounted solution for the end user. It can handle SC Sx, LC Dx or even hybrid adapter types and is especially suitable for FTTH hard cable and our hard cable field termination.
